PROJECTS

Tometou (2022-2023)
Anonymous Social Network Website

- A platform where users can post and interact without revealing their identity.
- Enables anonymous sharing of thoughts, confessions, or discussions in a safe digital space.

ToothTrackr (2024-2025)
Web-Based Dental Clinic Scheduling System

- A web application that allows patients to book, reschedule, and cancel dental appointments online.
- Streamlines clinic operations by managing dentist schedules, patient records, and appointment statuses in one system.

Cabs Korean (2024-2025)
Web-Based Order and Reservation System

- A web platform that lets customers place food orders and make table reservations online.
- Helps restaurant staff manage orders, bookings, and customer data efficiently in real-time.
